

Orkin, Inc.

At Orkin, we know that one pest in your facility is one too many, which means that your pest control service can't be good – it must be excellent. We're proud to be trusted by more businesses than any other pest management provider in North America.

Our People

With more than 100 years of experience, Orkin has become known for the best-trained professionals in the industry. Orkin's exclusive commercial training protocol requires all Orkin Commercial Pest Specialists to complete courses from Purdue University and the American Institute of Baking.

Our Service

Orkin created Gold Medal Protection, a comprehensive pest management program designed specifically for highly regulated food processing facilities. Gold Medal Protection offers all the standard features of Orkin's regular service, with a heavy emphasis on quality assurance and documentation.

Gold Medal clients benefit from an Integrated Pest Management (IPM) program tailored to each facility and a comprehensive reporting system that meets or exceeds HACCP regulations and the reporting needs of external auditing agencies such as the American Institute of Baking, United States Food and Drug Administration, and United States Department of Agriculture. In fact, respondents to a survey of Gold Medal clients averaged better than 95 percent on the pest control portion of their third-party audits.

As part of Gold Medal Protection, our clients also benefit from the expertise of our independent Quality Systems Department made up of sanitarians and board-certified entomologists who have experience in the fields of public health, environmental biology, entomology and inspection techniques. Our team works with you to design effective programs and monitor them through annual quality audits.

Our Promise

The value of our service is measured by your complete satisfaction. Choosing Orkin is a statement that your quality standards are high and that you demand nothing but the very best service from your suppliers. We offer a Triple Guarantee for total protection. Your satisfaction is our promise.
