(BusinessWire) — “Cranberries are an exceptional holiday fruit,” said Larry Martin, vice president of global marketing at Ocean Spray. “They make everything more festive and provide the perfect complement to holiday dishes and décor whether they’re fresh, dried, juice or sauce.”

The cranberry also boasts a wealth of whole-body health benefits. In fact, 1/4 cup dried cranberries or 1/3 cup sauce offers the same health benefits as an 8 ounce cup of cranberry juice cocktail.
