

## **Photos of the Day: USDA Projects Lowest Florida Orange Crop in 24 Years**

In this July 14, 2006 file photo, with ripe Valencia oranges waiting to be picked as Juan Tinajero climbs a ladder in Arcadia, Fla. The U.S. Dept. of Agriculture released its citrus production forecast Wednesday, April 9, 2014. The forecast this year's Florida orange crop is approaching the fruit's lowest crop total in 24 years. **(AP Photo/Chris O'Meara, File)**
