

Photo: Driving the Mustard Trend

Maille

The Maille Mustard Mobile will embark on a national tour to spread the mustard love across the USA. Whether popping up in high-traffic city centers, parking at food-centric events, or partnering with local restaurants and stores, Maille's first-of-its-kind mustard-bar-on-wheels will serve up complimentary tastings of the brand's signature products from a sleek and stylish electric vehicle. Stops are scheduled around the Northeast in June and July, followed by a line up of West Coast stops in September, and wrapping up in Chicago in October. **(PRNewsFoto/Maille)**
