

## Metal Detector

Lindsey Jahn, Associate Editor

The Eriez® Xtreme® Metal Detector is designed to achieve the highest levels of sensitivity to detect small ferrous and nonferrous metal contaminants in sanitary and non-sanitary environments. Product features include:

- Stainless steel housing
- Information and alarm tower
- 7" touch screen interface with high pressure washdown guard
- Software with remote access
- Sanitary conveyor
- Multiple USB and interface ports
- Food-grade polypropylene belt
- Single point electronics
