

Pressure Test Gauges

Lindsey Jahn, Associate Editor

700G Series Precision Pressure Test Gauges feature pressure measurements ranging from 10 inH₂O/20 mbar to 10,000 psi/690 bar and 0.05% accuracy with new absolute pressure measurement ranges and reference class accuracy gauges with reading accuracies of 0.04% of reading. Users can combine these gauges with Company's 700PTPK or 700HTPK pump kits for a complete pressure testing solution for up to 600 psi (40 bar) with the PTP-1 pneumatic pump and up to 10,000 psi (690 bar) with the HTP-2 hydraulic pump.
