

Portable Floor Scales

Lindsey Jahn, Associate Editor

Weighing in at less than 100 pounds and featuring built-in handles, wheels and ramps, Company's Run-a-Weigh is easy to lift and roll to wherever mobile weighing is needed. Whether it's multiple weighing locations at a single facility or the need to take the scale to special job sites, this product provides portability for weighing barrels, drums, totes and small crates. The unit now includes new features in the washdown stainless steel RW-1000S model. This model's Cardinal 190 indicator is IP69K-rated polycarbonate for high-pressure, high-temperature washdowns, and it features seven different LCD display colors and capacitive touch keys. An optional rechargeable lithium iron battery pack is available for truly mobile weighing.
