

Remote Manager for Smartphones & Tablets

Lindsey Jahn, Associate Editor

The Parker Remote Manager mobile application is designed for the Interact Xpress™ and Parker Factory Display products. The app is available for both iOS and Android devices. Users can monitor and control their systems from anywhere using a smartphone or tablet. Supported devices and platforms include:

- iPhone 4/4S, iPhone 5
- iPad2, iPad mini
- iOS version 4.3 and higher
- Android OS version 4.2.2

Download, setup and use is easy:

- Log-in using the machine IP address, username and password
- User configured alarm notifications via text or email
- Machine/plant metrics at your fingertips
