

Floor Waste Recycling Boxes

Company's Zero Waste Boxes offer a place for factory and facility employees to recycle ear plugs and hair and beard nets. Boxes help facilities reduce their environmental impact. Managers can purchase boxes to recycle ear plugs and hair and beard nets separately or a combination box where both can be comingled. Company provides signage to help educate the workforce and increase compliance. When the box is full, it is shipped to Company for processing. The shipping cost is included in the price of the boxes.
