Odor Neutralizers

Spray Kleen Air Fresh odor neutralizer products chemically react with and neutralize unpleasant smells, and leave behind a fresh, pleasant fragrance; scents include Summer Fruit, Fiji and White Tea. These products are ideal for use in a wide range of applications, including food manufacturers. Product is super concentrated to reduce packaging, storage needs, freight, handling costs and landfill waste. The system is 'closed loop' with bottle inserts and matching caps, eliminating the opportunity to misuse or over use product. Additionally, custom dispensing provides controlled usage and increased safety. Each product is also color and number coded and has secondary labels and signage, maximizing safety and ease-of-use. Cleaning product is a complete cleaning solution that can be customized to satisfy a wide range of application-specific janitorial and other sanitation needs. It is comprised of an all-purpose citrus cleaner, a multi-surface neutral cleaner, a glass and hard surface cleaner, a tub and tile cleaner, an odor neutralizer, a detergent/disinfectant and an optimized dispensing system. Product is on the forefront of environmentally friendly cleaning technology, and has been since the early 1980s. With products that are DfE certified and using Lean Manufacturing practices, these chemicals deliver the best environmental solutions for a wide range of cleaning needs.
