

PACK EXPO Coverage: Conveyor Changeover Innovations, Booth #4028

Growing to hundreds of available application-specific innovative options, Company's changeover offerings range from low-tech adjustable bracket and rail assemblies to fully automated guide rail systems. Company's changeover specialists have developed the following programs to communicate and educate customers on this equipment:

- New videos and webpages on solutions
- A new white paper, "Packaging Line Changeover: Conveyor Technology that Cuts time"
- A "Changeover Solutions" display at PACK EXPO
- An ROI analysis tool that compares purchase cost to changeover man hours
