

Mettler-Toledo ICS226 Compact Checkweigher

Mettler-Toledo

When your process requires you to checkweigh or portion food or other products, your scales have to be precise, fast, ergonomically designed and easy to use.

The ICS226 Compact Checkweigher by Mettler Toledo is designed for efficient out-of-the-box simple weighing applications, and optimized for easy and fast checkweighing. It is an ideal portable scale solution for weighing and portioning in food production and packaging applications.
