

ERP in Food and Beverage, Tracing the Path to Success

Submitted by btomasino on Thu, 01/23/2014 - 11:10am Epicor

Of all of the types of manufacturers out there, food and beverage manufacturers may be subject to the most unique business pressures and requirements of them all. Mistakes can cost the organization greatly in fines and public perception. As such, according to the 2013 ERP Benchmark Survey, 94% of leading food and beverage manufacturers have implemented Enterprise Resource Planning (ERP).
